MA(1) offset−model residual checks: Direction−corrected lag−change rate

One row per offset: scatter / Q−Q / Holocene lag products for the selected MA(1)

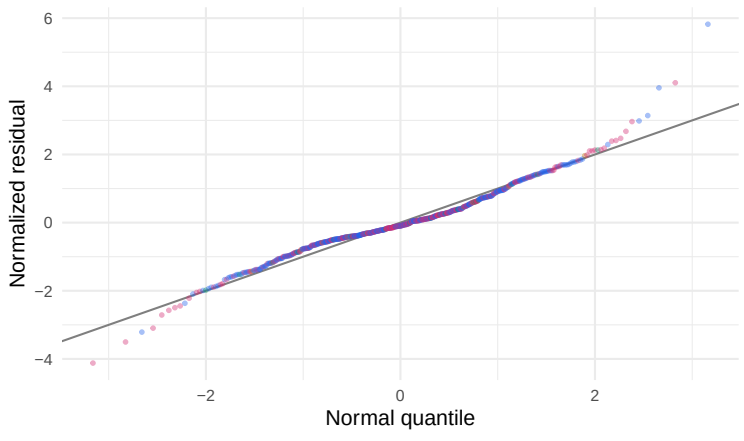

Offset 0 | MA1

Normalized residuals versus fitted

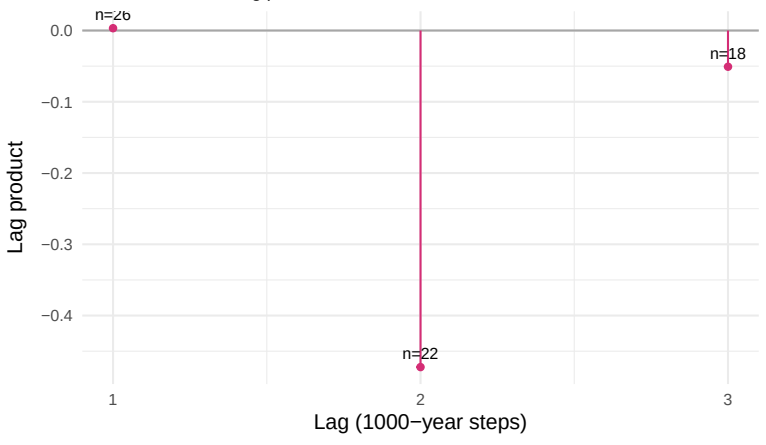

Offset 0 | MA1

Normal Q−Q; pooled normalized residuals

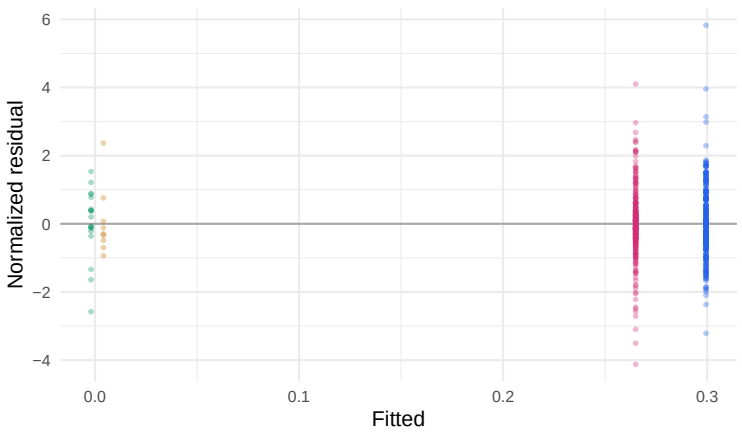

Offset 0 | MA1

Holocene residual lag products

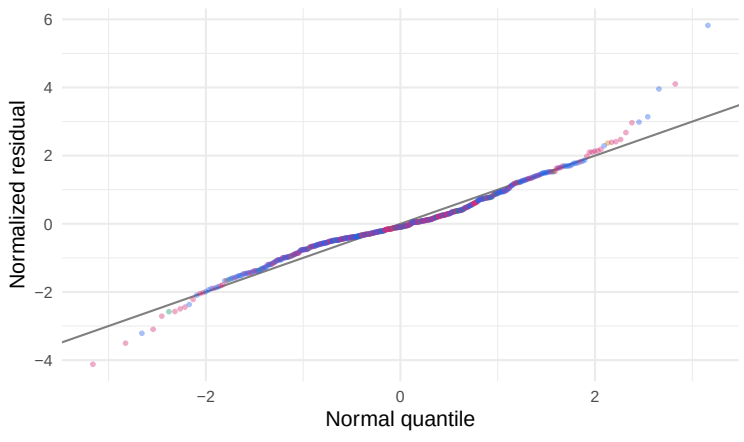

Offset 100 | MA1

Normalized residuals versus fitted

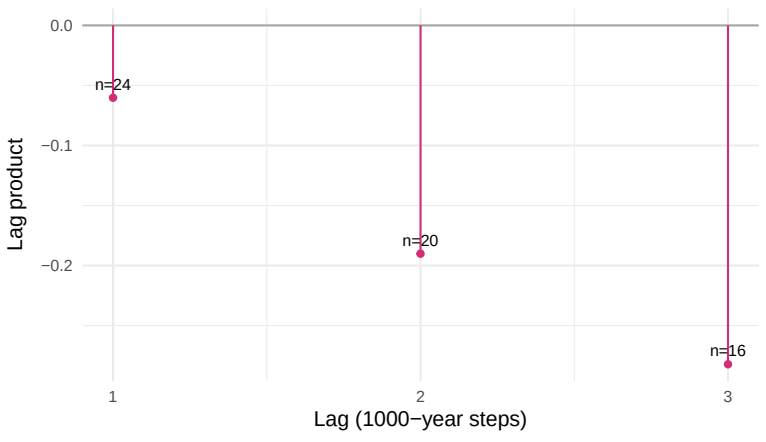

Offset 100 | MA1

Normal Q−Q; pooled normalized residuals

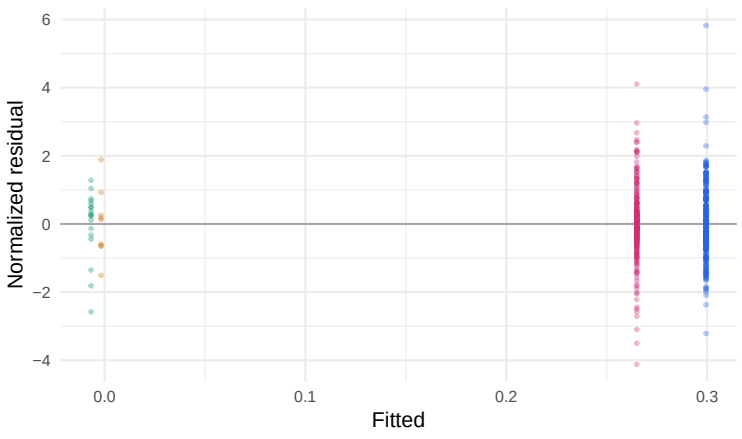

Offset 100 | MA1

Holocene residual lag products

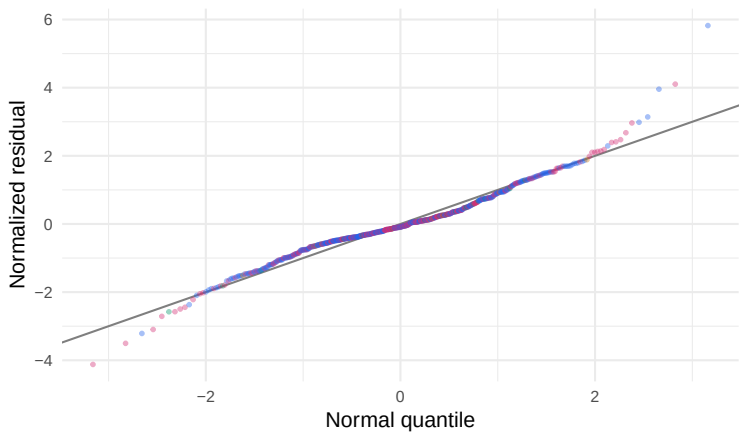

Offset 200 | MA1

Normalized residuals versus fitted

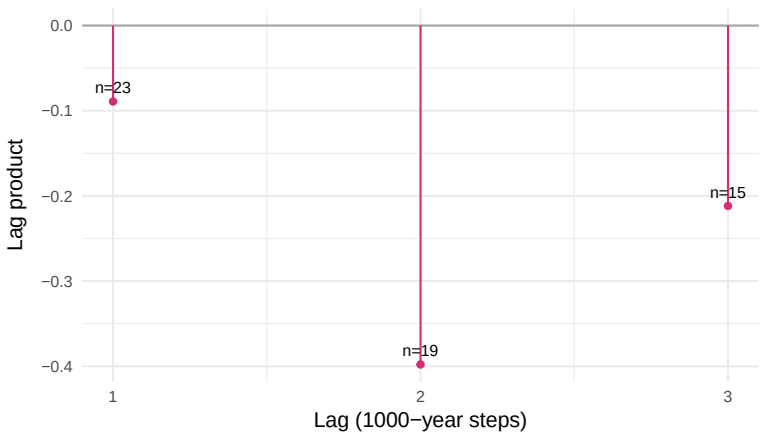

Offset 200 | MA1

Normal Q−Q; pooled normalized residuals

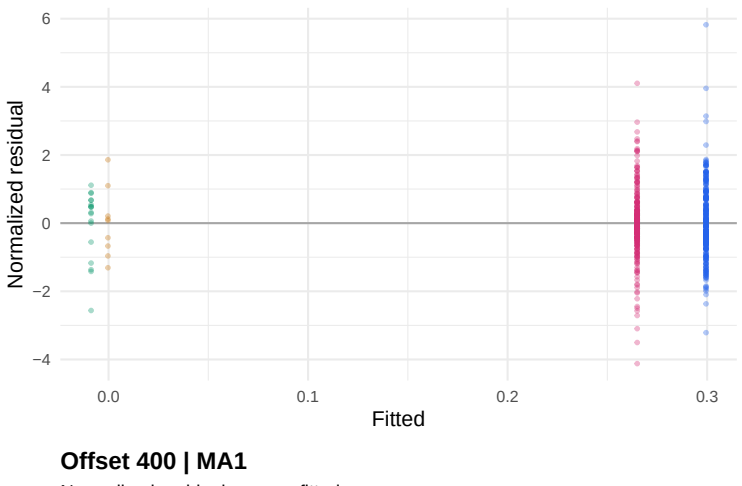

Offset 200 | MA1

Holocene residual lag products

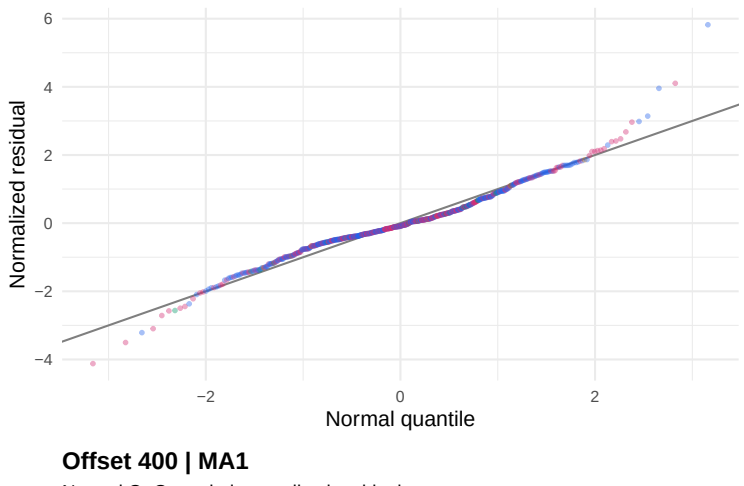

Offset 300 | MA1

Normalized residuals versus fitted

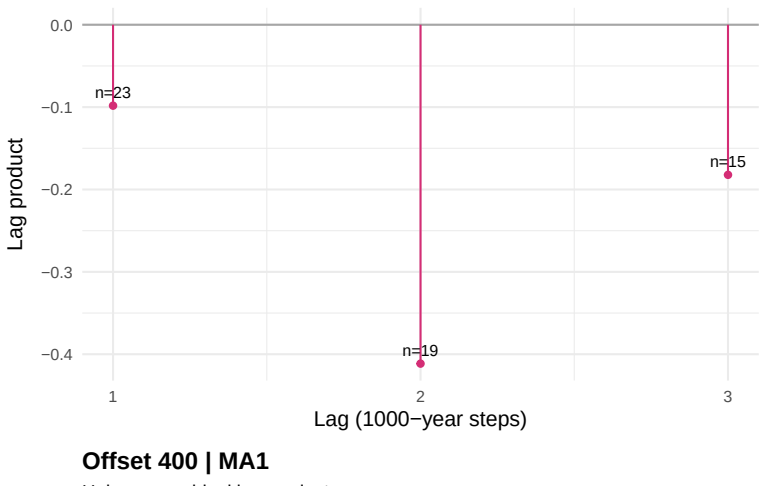

Offset 300 | MA1

Normal Q−Q; pooled normalized residuals

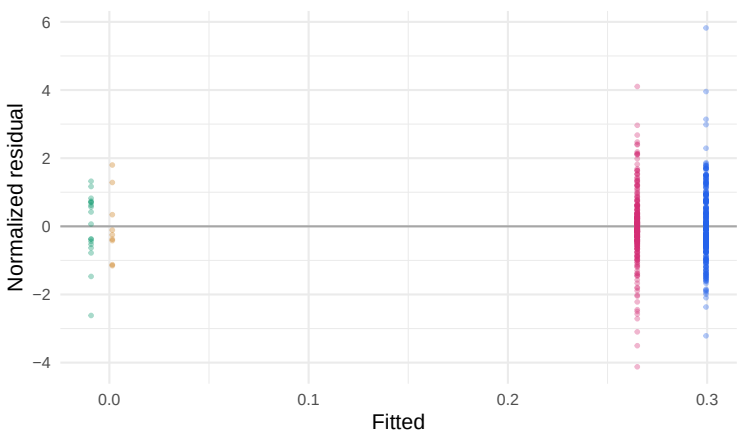

Offset 300 | MA1

Holocene residual lag products

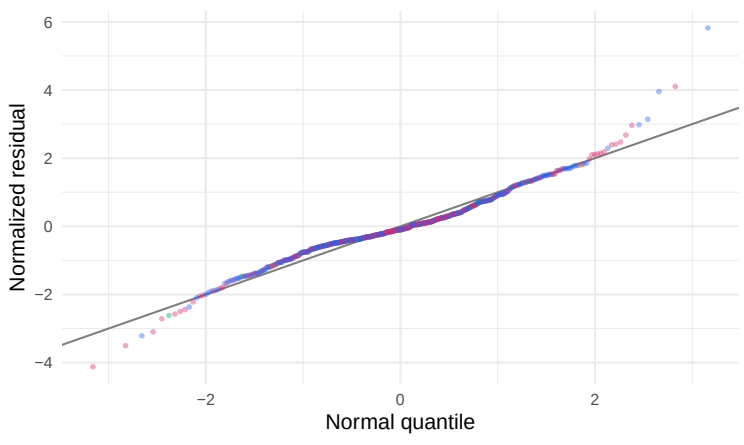

Offset 400 | MA1

Normalized residuals versus fitted

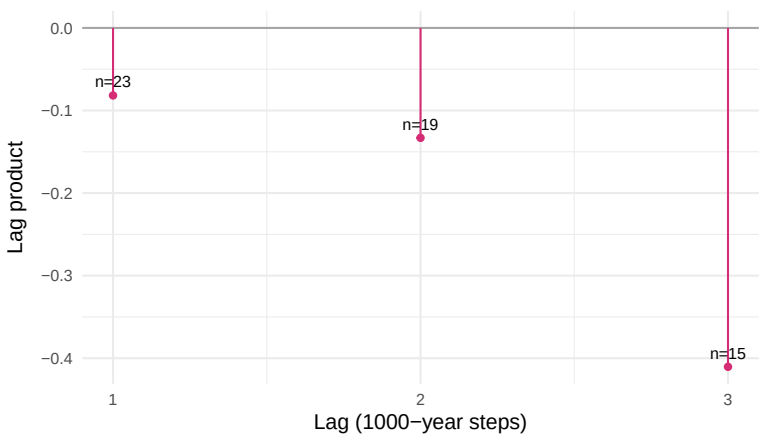

Offset 400 | MA1

Normal Q−Q; pooled normalized residuals

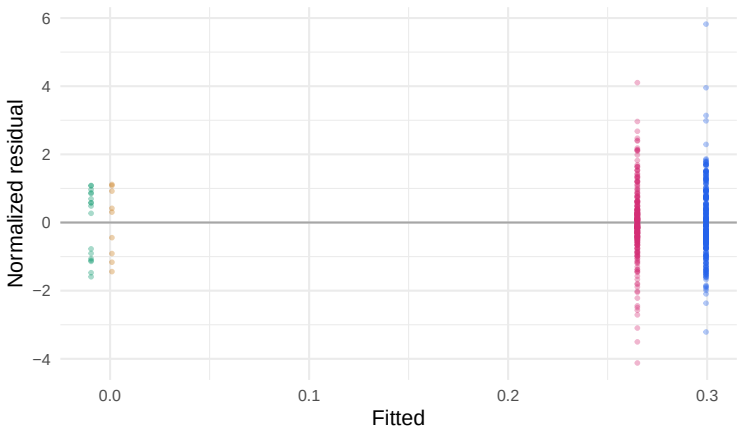

Offset 400 | MA1

Holocene residual lag products

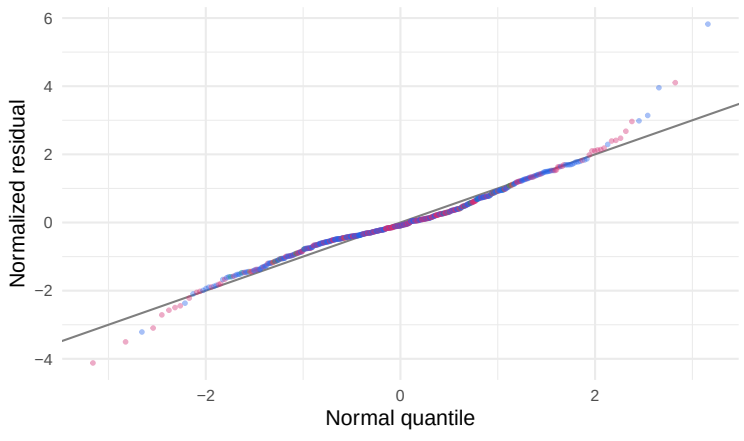

Offset 500 | MA1

Normalized residuals versus fitted

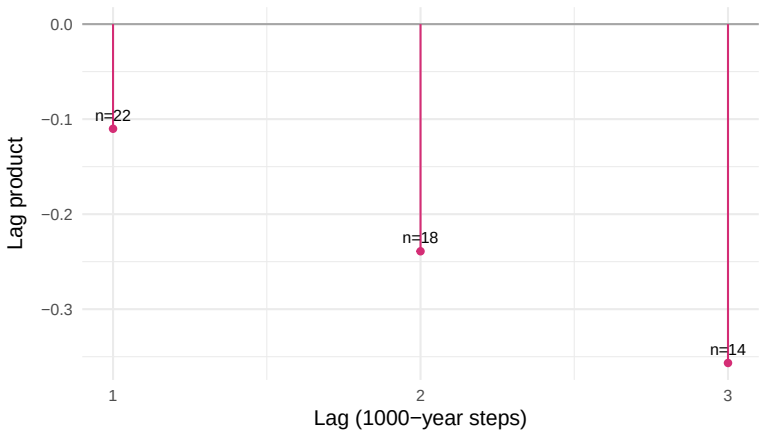

Offset 500 | MA1

Normal Q−Q; pooled normalized residuals

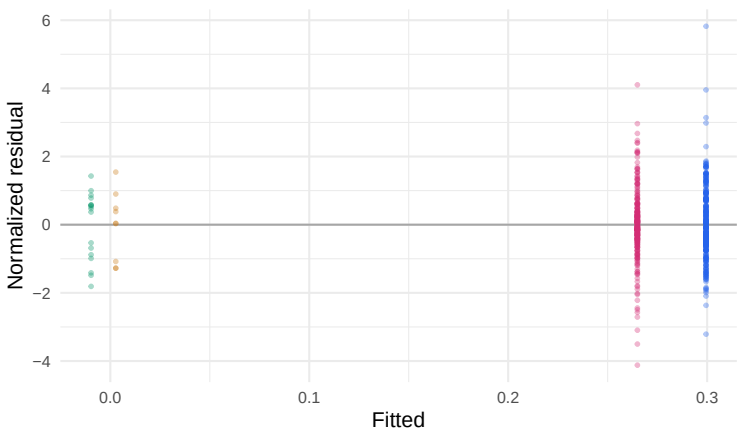

Offset 500 | MA1

Holocene residual lag products

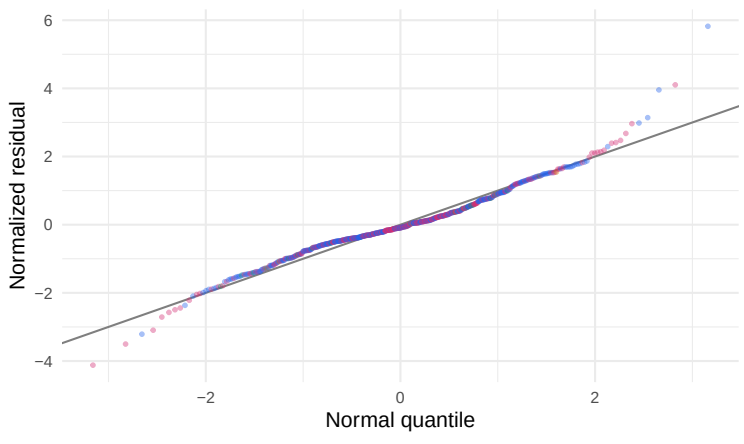

Offset 600 | MA1

Normalized residuals versus fitted

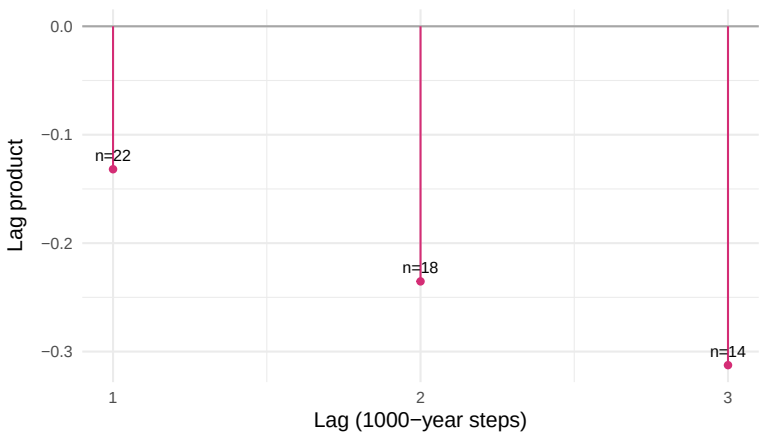

Offset 600 | MA1

Normal Q−Q; pooled normalized residuals

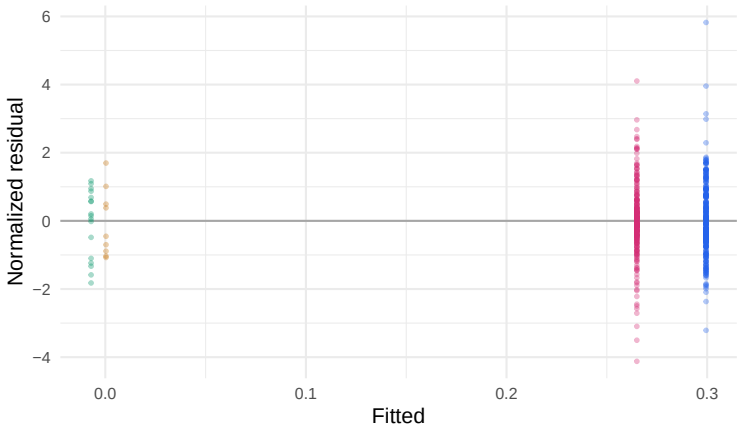

Offset 600 | MA1

Holocene residual lag products

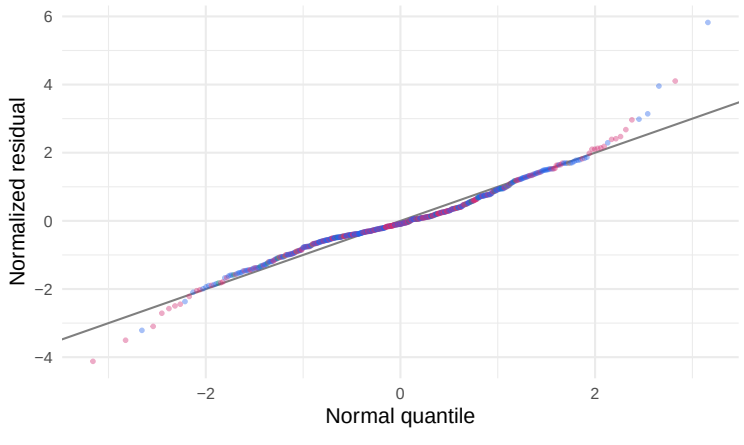

Offset 700 | MA1

Normalized residuals versus fitted

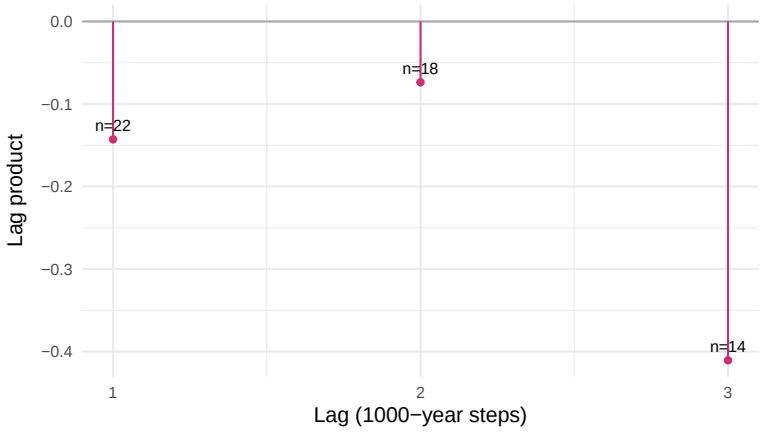

Offset 700 | MA1

Normal Q−Q; pooled normalized residuals

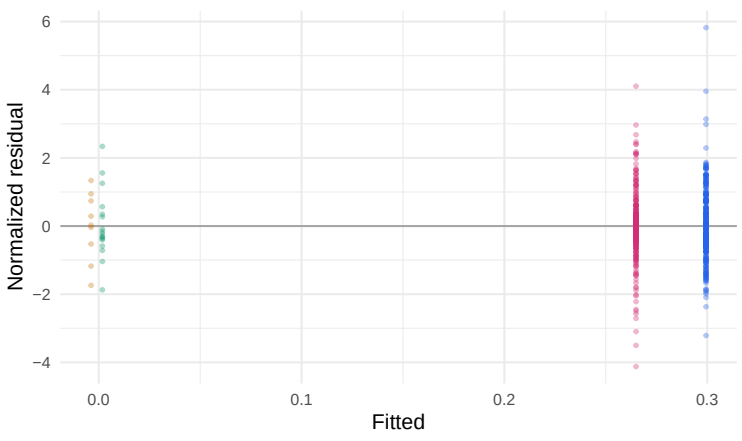

Offset 700 | MA1

Holocene residual lag products

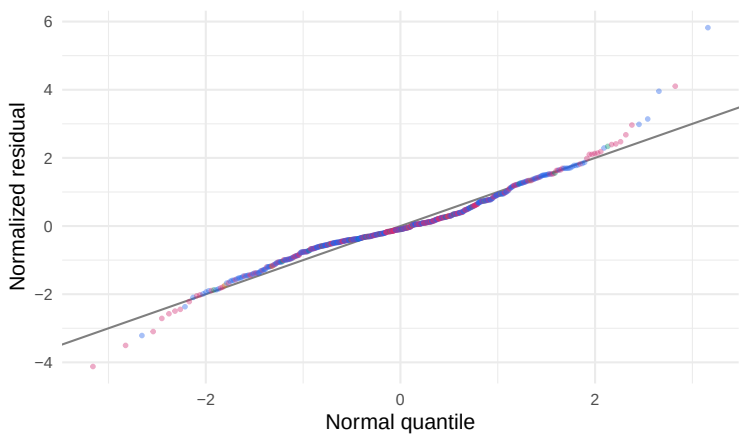

Offset 800 | MA1

Normalized residuals versus fitted

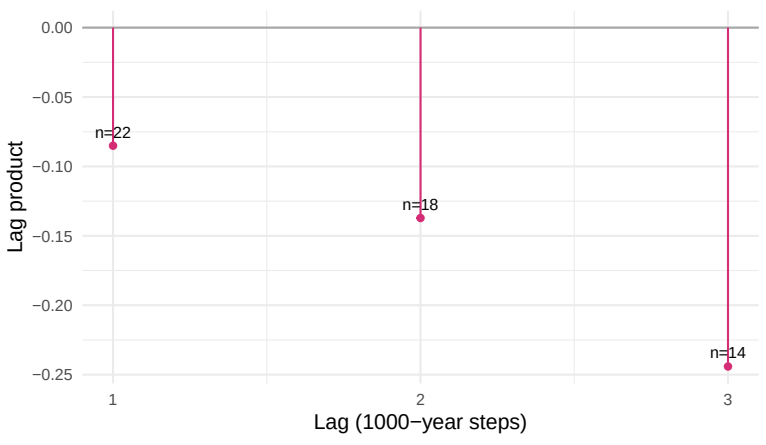

Offset 800 | MA1

Normal Q−Q; pooled normalized residuals

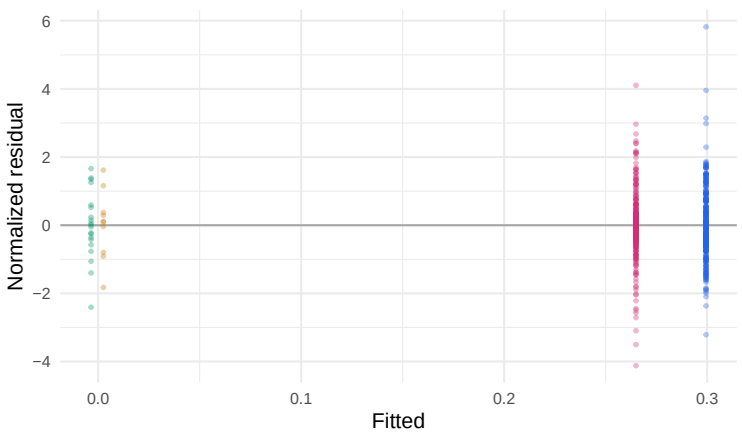

Offset 800 | MA1

Holocene residual lag products

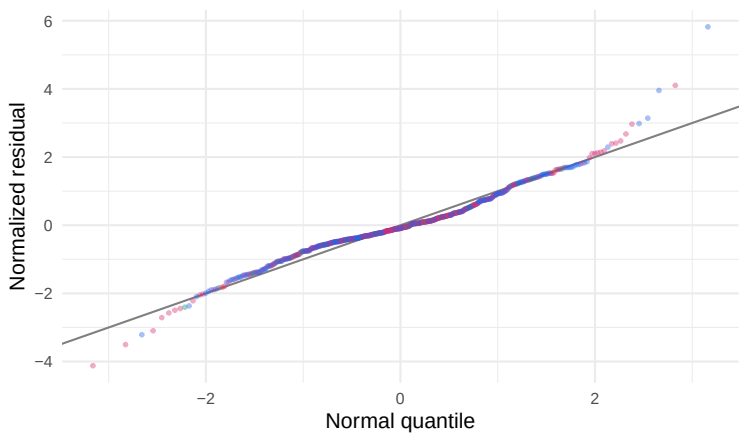

Offset 900 | MA1

Normalized residuals versus fitted

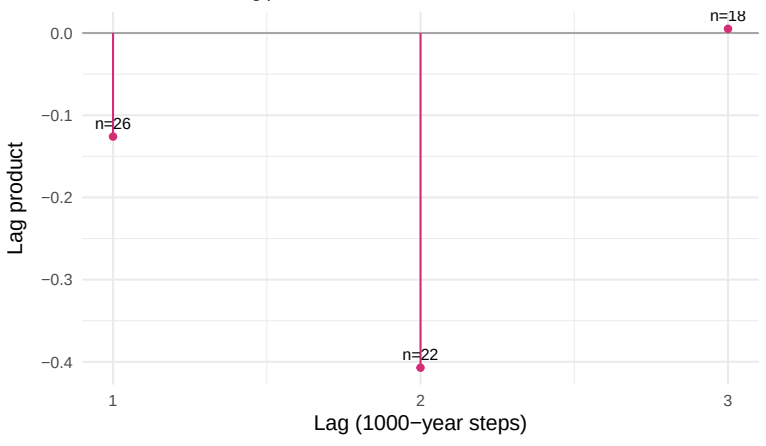

Offset 900 | MA1

Normal Q−Q; pooled normalized residuals

Offset 900 | MA1

Holocene residual lag products

Colors: Holocene MORA green, Holocene NOCA orange, Anthropocene MORA blue, Anthropocene NOCA pink.
Holocene lag products match actual within−lake time gaps; labels give pair counts. Modern singletons are excluded. No formal lag tests or confidence bands.
MA(1) selected; distribution and inference remain exploratory. Chronology uncertainty is not propagated.
